View College Budget Information

The College Budget Information screen displays the budget information for the school. This screen will default to the school's Main Base MAP Code. Schools with multiple MAP codes can view budget figures for other MAP codes by selecting the appropriate code next to "MAP Code" and clicking on **GO** (only for schools with multiple MAP codes). This screen is a view-only screen containing budget-related information for a given academic year/MAP code combination. This screen is available from the Table of Contents and is accessed by clicking on View Budget.

Student Detail: Edit MAP Code Screen

The purpose of the Student Detail: Edit MAP Code screen is to allow authorized users the ability to change the MAP code of an individual student record. Access this screen by clicking on the **Edit MAP Code** tab button from the Student Detail: Eligibility screen. Schools with multiple MAP codes are the only schools who can access this screen. Based on the school's current Title IV code, the related MAP codes can be selected from a combo box. Once changes have been saved, this will assign the selected MAP code and recalculate the MAP award for terms 1, 2, and/or 3.
